A Million More Cars
Talking to 70,000,000
Changeable Chinese
The Continents Slip

BY ARTHUR BRISBANE
The acceptance speech Mr. Hoover
delivered, among national bless-
ings, the building of 14,000,000 new
homes in the last seven years.

Mr. Hoover, president of General
Electric, announces an addition to our
nation's wealth by turning out its
newest product, a car built thus far in
the world.

Mr. Knudsen, head of Chev-
rolet, who was once with Ford, is a
"production man."

When Governor Smith talks to the
American radio audience next
Wednesday night, 70,000,000 will be
able to hear his voice.

Within one hour a public man
can address practically the entire
population of the United States. All
that he has to do is to speak into a
microphone and his words are heard
by the crowd around him, by the
radio, and by the millions of people
who are listening to his voice.

What do ancient miracles amount to
compared with miracles of science?

MISSIONARIES devoting their lives
to converting Chinese will be inter-
ested in the story of Field Marshal
Jing Hsiang-shan, hitherto known as
"the Christian general."

A Christian no longer, his story
is as follows:
As a boy, he saw his father, a poor
peasant, worshipping Buddha idols.

He believed in Buddha, but when his
father died in spite of prayers to
Buddha, he dropped that god and his
religion.

It is only fair to add that Buddha
could not recognize his own re-
ligion in China any more than the
religion of Christianity would recog-
nize his religion in some of our fan-
ciful churches.

For a while Marshal Feng wor-
shipped snakes, but afterward he
became a Christian. Then he
became a Buddhist, but he was
in the Communist doctrine, dropped
Christianity and became a Commu-
nist.

RETURNING to China, he joined
the Kuomintang party, adopted
the principles of the late Dr.
Sun Yat Sen, first president of the
Chinese republic. These three prin-
ciples supply all the religion he needs.

A PIOT's missionary cannot be
said to be a converted Chinese
who has stayed. But that is no re-
ason for discouragement.

When, at last, Feng wakes up in
the morning, with Sun Yat Sen on
his mind, he will find that he has
stayed Christian.

PRINCETON's scientific expedition
to Patagonia, after 25 years of
study, reports that South
America and Africa were once united.
German scientists reached the same
conclusion several years ago.

THE earth's surface is light, com-
pared with the earth core on which
it rests, and the earth surface, the con-
tinents, that support us, slide around
on the hard core, like butter on a hot
pan.

THE slipping movement is slow,
however, and you need not worry
that your real estate. Some day it
will be where it is now, but that
is far off.

THE learned Professor Esau of Jena
university finds that ultrashort
radio waves can be useful in medicine.
He inoculated 30 mice with tuber-
cles, treated 15 of them with his
short-wave waves. The 15 mice treated
died quickly.

THAT sounds cruel to anti-vivisec-
tionists. But to neglect experi-
ments that might save human life is
cruel.

There are warning that use of radio
waves in disease require great skill.
Exposure to the short wave causes a
rise in temperature of one degree per
second.

Mice, exposed to strong short waves,
die in convulsions. Do not experiment.

A GREAT action, and good pecu-
niary, is Canada. This year's
Canadian wheat crop—500,000,000
bushels—breaks all records.
And Canadians have just dedicated a na-
tional park in the northern part of the
province of Saskatchewan. 900,000
acres in extent.

DOING things in a big way in Can-
ada, and this country is
able to have so able and friendly a
neighbor.

While Rans contributed to Canada's
great growers when he dug the Pan-
ama Canal, letting all nations use it
on some terms he deserves.
Through that canal Canadian food and
timber can deliver where it brings
more to the world.

BETTERS MARK OF MACREADY BY SEVEN HOURS

Flies from Los Angeles to New
York City in 19 Hours,
Two Minutes

SPORTSMAN WITH HIM
Pair Uses Lockheed Vega
Plane for Non-Stop
Flight

Curtiss Field, N. Y., Aug. 20—Art
Goebel, winner of the Dole flight to
Hawaii, arrived here this morning,
establishing a new record for a non-stop
flight across the continent.

Goebel left Los Angeles at 12:06 p.
m. yesterday (Pacific standard time)
and arrived here at 11:05 a. m. eastern
daylight time, making the long
journey in 19 hours and two minutes.

Goebel was accompanied by Harry
Tucker, Santa Monica sportsman, in
the plane "Yankee Doodle," a Lock-
heed Vega with a Pratt Whitney motor
capable of 175 miles an hour.

The previous record of 26 hours and
50 minutes was held by Lieutenants
McCready and Kelly.

Reports of the plane since its de-
parture from Los Angeles had been
few, but no anxiety was felt for Goebel
and Tucker by aviation experts, who
expressed absolute confidence in the
Hawaiian flight winner's ability to
succeed.

The flight marked the first time the
nation has been spanned from west to
east in a non-stop jump, and broke a
speed record which had stood for more
than five years.

The plane carried 450 gallons of
gasoline. The route lay across
Arizona, New Mexico, Texas, Okla-
homa, Kansas, Missouri, Illinois, In-
diana, Ohio and Pennsylvania.

HOOVER PLEADS FOR RELIGIOUS FREEDOM

G.O.P. Nominee Crosses Kan-
sas Enroute to West
Branch Birthplace

Aboard Hoover Train, Enroute to
Kansas City, Aug. 20—Having sounded
a new appeal for religious freedom in
the heart of the Catholic southwest,
Herbert Hoover crossed Kansas today
enroute to a series of farm conferences
at his birthplace in West Branch, Ia.

The Republican nominee will reach
his birthplace early tomorrow morning,
spending the day reviewing scenes familiar
to his boyhood and deliver his first
prepared farm speech at night. He will
spend Wednesday and Thursday at
Cedar Rapids, meeting hard-headed
sons of toil and farm leaders from all
sections of the middle west. He will
resume his return trip to Washington
late Thursday.

On his journey east through Arizona
and New Mexico, Hoover received as-
surance from Republican leaders that
he would carry both states. He spoke
to a dozen crowds from the rear plat-
form of his train, including one pre-
pared speech at Albuquerque. It was
in his speech with Catholics pre-
dominating in his audience, that Hoover
sounded the religious liberty note.

"Like to remember in these days of
the occasion of raising the American
flag in this state, a statement that is as
true today as it was then," said Hoover.

"We come as friends to make this
a part of representative government.
In our government all men are equal.
Every man has a right to serve God
according to his conscience and his
heart."

MEETING CALLED TO PLAN FAIR PAGEANT

Details of Entertainment To
Be Worked Out Thursday
Night

Plans for the historical pageant
which is to be a new feature of the
Marion county fair this year will be
outlined at a meeting of citizens and
organization leaders, called for 8
o'clock Thursday night at Schwinger's
hall, North Prospect st. The meet-
ing was announced today by Roland
Leeper, county fair secretary, who is
making arrangements.

It is the intention of the fair man-
agement to interest citizens from all
parts of the county in the pageant,
which will depict the history of both
the city and county. Leeper stated
that the cost of 300 will be from
the city of Marion, according to plans
now under way.

Because of the prominent part city
residents are to have in the production,
Leeper is desirous of having a large
representation of local residents at
Thursday night's meeting. Notices are
being sent to heads of various local
organizations. Leeper says, however,
that the public is invited and that any
wished in sending out notices will be
welcomed.

The director of the John B. Reg-
gie Producing Co. of Fostoria, the
company which will stage the pageant,
will be at the meeting and take
charge of arrangements. This com-
pany will furnish all scenery and cos-
tumes in addition to directing the en-
tertainment.

Suggestions and ideas are requested
from all attending the meeting. Leeper
said.

The pageant is to be the main en-
tertainment feature of the night fair
program Wednesday and Thursday
nights, Sept. 12 and 13.

MOTORCYCLIST HURT IN CRASH WITH CAR

Russell Gottshall, 19, in Ser-
ious Condition After Acci-
dent Near Marion

Russell Gottshall, 19, son of Mr. and
Mrs. M. E. Gottshall, Marion R. P. D.
No. 4, is reported in a serious condi-
tion at City hospital today, the result of
a collision of the motorcycle he was
riding with a Chevrolet touring car on
the Bucyrus pk., south of Crystal Lake
park, at 4 o'clock, Saturday afternoon.

Gottshall is suffering from severe
laceration of his left side and thigh, a
fractured right arm at the wrist and
severe injuries.

The accident occurred when Gottshall,
riding his motorcycle north, failed to
notice the Chevrolet being driven south
on the road. Gottshall, at the time of
the accident, was driving with his head
turned to the left and was looking at
a car traveling on the Upper Sandusky
pk. which he narrowly averted hitting
at the intersection of the two roads
when it turned off the main road.

N. E. Bailey, of Cleveland, driver of
the Chevrolet, was unable to avoid the
crash with the motorcycle, according to
witnesses. He was accompanied in the
machine by his wife.

The motorcycle hit the Chevrolet in
a head-on collision. The force of the
impact threw Gottshall against the
windshield and the top of the auto
mobile. He was rendered unconscious
and remained there for some time.

Dr. J. M. Bailey, who was called to
attend to the injured man, said that
the Chevrolet motorists were without any
receiving medical attention.

Ships Asked to Keep Lookout for Plane of Two U. S. Fliers Lost in Greenland

Bert Hassell and Parker Cramer Missing Since Sunday Morn-
ing. When Last Message Received from American Air-
men; Believe Ship Forced To Land

Halifax, Nova Scotia, Aug. 20—
Radiograms were flashed to ships at
sea early today to keep a lookout for
Bert Hassell and Parker Cramer, the
two American fliers who became
missing on Sunday morning, after
leaving their base at Goose Bay, N. Y.,
on a mission to locate the
bodies of their comrades who had
died.

Favorable weather conditions were
reported at the coast.
Belief is maintained here that the
plane was forced to land by mecha-
nical trouble, but there is no expla-
nation of its silence. The last signal
from the plane, received at 5 o'clock Sun-
day morning, was as follows:

LONG OVERDUE
Rockford, from Norwalk, Conn.
Gloss Over Rockford
Rockford, Ill., Aug. 20—Gloss
spread over Rockford today as hope
waned for the missing Sweden-bound
fliers, Bert Hassell and Parker Cra-
mer, who are almost a day overdue at
Mount Evans, Greenland.

"No sign of Hassell yet. Long over-
due,"
That was the discouraging report,
radioed from Mount Evans, in the
hands of the Chamber of Commerce
today. It was signed "Etes," for El-
mer Etes, mechanic, who had gone on

ahead to greet the plane in Greenland.
Many Rockford citizens remained up
all night to await word of the mis-
sing plane. The hope prevails that the
fliers are safe, having lost communication
with the base, but unable to world through
the heavy of their broadcasting set.

KILLING OCCURS NEAR HOME ON EDWARDS ST.

Bullet-Riddled Body of Cargo
Patsy Found at Rear of
Sanotta Dwelling

HIT BY FIVE SHOTS
Police Search for Unknown
Slayer; Motive for Shooting
Mystery, Is Report

Police today are searching for an
unknown young man who shot and in-
stantly killed Cargo Patsy, alias Patsy
Smith, 36, of Cleveland, in the back
yard of the Rocco Sanotta home, 174
Edwards st., at 11:30 o'clock, Sat-
urday night.

Patsy was shot with a .38-caliber
revolver, five bullets entering the up-
per part of his body.

The shooting occurred following a
visit to the Sanotta home, Patsy and
his companion, who was known only
by the name of "Young," according to
police, entered the Sanotta home early
in the evening and had left by the
front door about 11:30 o'clock.

Immediately after they had left the
home, the shots were heard by the
Sanotta family. The body of Patsy
was found lying on his stomach across
the walk leading through the back
yard. Three of the bullets entered
his left side beneath his left arm, one
in his stomach and the fifth in his
right arm below his elbow.

Patsy's companion escaped between
the members of the Sanotta family
reached the body. The assailant was
described to police as being of medium
stature and wearing a straw hat and
a blue shirt. He had been seen in
company of Patsy for several days, ac-
cording to police.

Motive for the shooting could not
be determined by police today. No argu-
ment had taken place during the visit
of the two men at the Sanotta home,
according to members of the family to-
day.

Patsy had been living in Marion for
about two months and resided at
204 East George st. He had been in
acquaintance with Rocco Sanotta for
some time, police say.

The murdered man had at one time
served a term in prison for reformatory.
Letters from friends found on his per-
son by police were addressed to Patsy
at the reformatory.

A sum of \$105 in bills was also found
in his pocket following the shooting.

Word of Patsy's death was re-
ceived this morning by the friends
who are said to have written to him
at the reformatory. Efforts to locate
relatives of the dead man in Cleveland
are now being made by police.

The body was removed to the Hens-
harker & Axt funeral home. No ar-
rangements have been made for the
funeral.

Jubilee's Pardner

A Story of Humorous Boyhood Adventure

By JUDD MORTIMER LEWIS

YESTERDAY was Sunday, one of the bestest Sundays the world has ever known, my grandfather said. He said he was old enough to know what was best. He said that when he was in Washington, D. C., he was ready to march South and win the prize someone bet him he couldn't get on the capitol steps and so he took two eggs on the steps and he took them and watched them fry, and when they were fried he ate them, and when time there was thousands of people around, and a fellow that was the president came and shook hands with him and said he had made a big mistake in addition to science and that he was a fool. Then my grandfather said what became of the eggs? He said he gave one to the president and kept the other for a pocket square. He said once when he was pursued by a superior force it kept a bullet from entering his brain, and my grandfather said what was the idea of carrying a bullet in his hip pocket, and he said he said it was in his coat and he said as he turned around to look at the blow up and covered his head, and he said he didn't find the bullet in his coat a long time afterwards. Then he said he turned him to turn around, and he said she was kind of grumpy, and he said she was what was hurting her and she was what was looking to see if his

BANKS MAKE HEAVY DEMANDS ON MARKET

Forward Movement in Manufacturing Stocks Most Pronounced

RAILS ENCOURAGED

By W. S. COUSINS
N. Y. S. Financial Editor
New York, Aug. 24.—Little progress was made in any section of the stock market today. An early advance in the railroads failed to carry through, and the bulls apparently abandoned their operations in favor of industrial stocks. Industrial stocks remained "quiet" the forward move in the manufacturing stocks being the most pronounced.

The advance in the rails today was well diversified over a broad list of speculative and dividend-paying issues. In the first group were Missouri-Kansas-Texas, St. Louis Southwestern, the St. Paul, reorganized, Western Maryland, Peoria and Eastern Chicago, Chicago, Great Western and Wabash, in which net gains for the day ranged from one to five points. St. Louis Southwestern sold above 100 for the first time on record. New York Central, Illinois Central and Southern railway led a moderate advance in the investment rails.

Today in Marion Markets

Groceries, Produce, Meats, Grain, Livestock

First appearance of Indiana water-melons, considered the best variety to be placed on the local markets this season, will take place here within the next week, according to an announcement of Marion retail produce dealers today.

Report of a good crop in the Indiana melon fields gave weight to predictions today that the price on the imported variety would be much lower than the price of other watermelons sold on the local markets so far this season. The melons to be shipped to Marion from the Indiana fields will be nearly fully ripened before they are picked, dealers say. This will give the melons a flavor not obtained in other varieties placed on the market here. Other melons are picked green before they are shipped to this city, dealers say.

Home-grown peaches made their appearance on the local market for the first time this season, Saturday. The peaches were small and of a poor grade but a ready sale was reported. An exceedingly high quotation of 65 cents a bushel (\$2.25 a bushel) was asked on the first variety.

Following a good sale reported on all of the Marion produce stands Saturday, a large quantity of sweet corn was being placed on the markets today. Dealers say the corn crop at the present time is at the height of the season. A price of 20 cents a dozen was the most prominent quotation made on corn today.

A heavy sale on California grapes was also noted on local fruit stands, Saturday. The grapes sold at 15 cents a pound. Home-grown grapes are expected to appear on the local markets within the next two weeks.

senator (unexpired term), favor that H. Brown for chairman of the state Republican central committee to succeed Fred W. Warner were considered erroneous by Warner today.

"It would be impossible for Brown to be elected chairman," Warner said at his office here today, "as he is not even a member of the committee."

Reports that the two Cleveland men were backing Brown for the chairmanship were current in Cleveland over the week-end following a conference attended by Maschke, Burton, Brown and Myers E. Cooper, Republican candidate for governor. The conference followed a meeting of the Cuyahoga county Republican central committee. Cooper addressed the members of the committee.

Others who are reported to have backing for the chairmanship are Col. Carmi A. Thompson, of Cleveland, former governor Harry L. Davis, also of Cleveland, Charles R. Frederickson, of Coshocton, former state chairman, and Harry D. Silver, of Eaton, who was Cooper's campaign manager during the recent primaries and in his campaign two years ago.

Maschke and Burton are reported to favor Brown because of his work for Hoover in Ohio. Thompson and Frederickson were leaders of the anti-Hoover forces in the presidential primary. Silver has the backing of Cooper and was allied with neither Hoover or anti-Hoover forces in presidential primary. Brown was Cooper's opponent two years ago for the Republican gubernatorial nomination but took no part in the recent primary.

Meeting Called

Warner has called a meeting of the state central committee for Aug. 21. The meeting will be held in Columbus. The selection of a chairman will be the first thing to come before the committee.

Warner pledged his unqualified support to Cooper in his campaign for governor in a statement issued this morning.

"Whether I am re-elected chairman or not, I will support Cooper," Warner said.

Gertrude Jones, of Findlay, who was elected committee woman from the eighth congressional district at the Republican primaries last Tuesday was in Marion Saturday afternoon for a conference with Warner. Plans for completing the party organization in the district were discussed, according to Warner.

That the organization this year will be the strongest the district has ever had was the assurance given by Warner this morning.

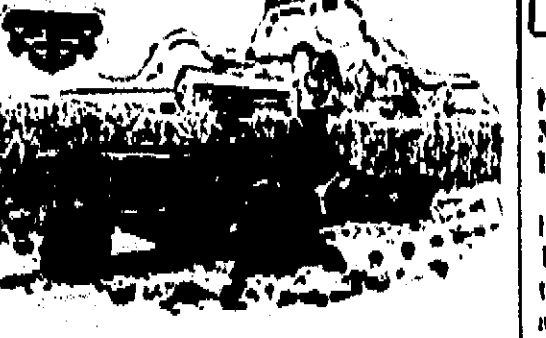

MCCORMICK-DEERING BROADCASTER

"Good Equipment Makes a Good Farmer Better."

We firmly believe that every man of our acquaintance can remember every thing that he ever got, and didn't deserve as a kid, but he forgot all about the man that he did deserve, but didn't get.

Boy: "Do you know, Dad, that in some parts of Africa a man doesn't know his wife until he marries her?"

Dad: "Why single a out Africa?"

When corn-cutting and silage-baling time comes around—and it won't be long now, you're up against the need of real equipment for the job. Heavy, hard work of best, but it goes ahead a lot faster and better when a fast-working corn binder cuts and binds the corn, and a safe, trouble-free, light-running cutter puts the crop into the silo. If you will consult us you will find we are in position to help you line up your equipment for the entire silage-baling operation. Two types of corn binders to choose from, vertical and horizontal. Ensilage cutters in four types, ranging in capacity from 2 to 25 tons per hour, and including the remarkable new No. 12, with its one-piece main frame, automobile-type transmission, and reinforced butter-plate cylinder, the McCormick-Deering performance in the best kind of assurance that these machines will simplify the big corn job for you this year.

BLISSFUL IGNORANCE

Fair Motorist: "Oh yes, what is it you wish to know?"

Airplane Sales Agency and School Announced as First Airport Development Here

Dr. R. W. Andrews Made District Representative for Velle Monocoupe, with Headquarters in Marion; Expects To Have Three Planes Here Within Next Week

Early use of Marion's airport was forecast today with announcement that an airplane sales agency and an instruction school for flying would be established in the city in the near future.

Plans for the airplane sales agency were made known today by Dr. R. W. Andrews, local dentist, who just recently obtained this district for the sale of the Velle Monocoupe airplane. The instruction school will be conducted in connection with sale of the planes, according to Dr. Andrews.

Experienced Flier

Dr. Andrews, who is an aviator with the Royal Air Corps of Canada during the World War, last week completed negotiations for purchase of one of the Velle type planes and plans to bring it to Marion within the next week. Dr. Andrews will be in charge of the local agency, and his assistants, who have not yet been selected but who will be experienced aviators, will be in charge of the instruction school.

The local dentist maintains that installation of an airport in Marion will be of the greatest aid to aviators in air mail transportation on the Dayton-Cleveland route. Marion, he says, is a half-way mark on the route and with installation of the airport fliers will be able to stop off here for the purpose of refueling and making repairs.

Plans Hangar

Plans are now being made by Dr. Andrews for construction of an airplane hangar in Marion to keep his planes, at the Marion airport. Dr. Andrews within the next few days will take up the matter of constructing a hangar on the field with city officials. His own plane will arrive at the city within the next week and should his proposal with city officials be accepted, he will place the plane in a hangar on the city landing field, according to the plans outlined by him today.

The Marion man will be unable to take part in the instruction of flying students because his pilot's license was taken from him when he lost the sight of his right eye in an accident at his office last February. He now holds a private pilot's license.

Record of Service

Dr. Andrews has a total of 2,700 hours of flying in the military service to his credit. He enlisted in the Canadian air forces in 1914 and was mustered out of active service in 1919. Following his discharge he was an air mail plane for the United States government one year.

During the war Dr. Andrews shot down four German planes, he states. He was shot down twice while engaged in battle with enemy planes, once by Richthoven, Germany's great war ace, escaped in the falls with minor injuries. He held a captaincy with the Canadian forces and received an honorable discharge.

The Velle plane to be handled by the local man in this district, which includes a territory 25 miles wide, extends from Marion to the south.

RECEIVER IS ASKED FOR MARION FIRM

Dissolution of Bodley-Osman Electric Co. Sought in Court Action

A petition asking for dissolution of the corporation and appointment of a receiver for the Bodley-Osman Electric Co., of Marion, has been filed in the court of common pleas.

Plaintiffs in the petition are Harry Bodley, William Bodley, Hazel Bodley and Charles W. Osman, all of Marion. According to the petition the plaintiffs hold a controlling share of the stock.

The petition states that the firm is not able to pay its bills and that a number of creditors have attached stock and equipment of the concern in municipal court. Further attachments will cause the plaintiffs to suffer considerable loss as the firm now holds valuable contracts which cannot be completed unless a receiver is appointed, the petition claims.

One hundred shares of stock in the corporation are held by six persons.

There follows a list of the stockholders and the number of shares held by each.

Harry Bodley, 17 shares; Hazel Bodley, one share; William Bodley, five shares; Charles W. Osman, 18 shares; Joseph and Elmer Fleming, Winona Lake, Ind., 30 shares.

The plaintiffs are represented by Attorney Ben T. Wiant.

WEEK-END TRAFFIC TOLL ON DECREASE

Few Fatalities Reported Over State in Spite of Heavy Travel

The toll of traffic fatalities over the week-end was much lower than usually noted, a state wide check-up by International News Service disclosed today. Despite the clear, cool weather which prevailed generally throughout the state and filled the highway with pleasure bent motorists, auto accidents were few and the number of traffic deaths showed a marked decrease. Among those killed in traffic accidents over the 48 hour period were:

Dayton: William L. Matt, 65, instantly killed when he walked into the path of a fast B. & O. freight train.

Columbus: John D. Shinnon, 59, Civil war veteran, killed while crossing street on way to church by taxi cab.

Anna Boyd, 50, dropped dead of heart trouble in street in front of her home.

Broadacre, Jefferson county: Chester Wiley, 25, and Mary L. Swickhart, 17, killed when their auto struck by Pennsylvania train at grade crossing.

Cleveland: William Grady, 45, was killed when the automobile he was driving overturned.

Miss Sophia Eisenberg, 33, died in a hospital of injuries suffered when she and her mother were run down by an automobile, Friday. The mother died Saturday.

MARION, BUCYRUS LODGES HOLD PICNIC

More Than 125 Attend Outing Held at Sugar Grove Lake

More than 125 persons from the Marion and Bucyrus chapters of the American Insurance Union attended a picnic yesterday at Sugar Grove Lake. Fifteen machines from Marion chapter, No. 684 left the courthouse at 10:30 o'clock yesterday morning.

The outing was opened with the singing of "America" and a prayer led by Mrs. Anna Swank, of Bucyrus. A picnic dinner was enjoyed at the noon hour, and at 4:30 o'clock following contests, the cream was served.

Honors in the cream eating contest for youngsters between the ages of one to six years were won by Kenneth Cowan, of this city, and Betty Riddle, of Bucyrus. HOOVER'S STAND IS ASSAILED BY BUTLER

Columbia University President Declares Disapproval of Enforcement Promises

New York, Aug. 20.—Dr. Nicholas Murray Butler, president of Columbia university and uncompromising foe of prohibition, today declared his vigorous disapproval of Herbert Hoover's stand for enforcement, reaffirming his belief that the Eighteenth amendment must be wiped out "if the constitution is to be preserved and protected."

Continuing the fight he began more than a year ago to win the Republican party over to the repeal movement, a fight which he carried personally and long-handed to the floor of the Kansas City convention after encountering overwhelming defeat in the platform committee Butler declared that, "any one who is opposed to the repeal of the Eighteenth amendment" must then be in favor of the only alternative, which is the continuance of the present reign of lawlessness, debauchery and government-made crime."

SMITH'S REPLY TO WHITE IS AWAITED

Nominees Expected To Release Statement Late Today; Answer to Stratton, Too

Albany, N. Y., Aug. 20.—On the eve of the ceremony at which he will be formally notified of the Democratic presidential nomination, Gov. Al Smith today was expected to issue a statement denouncing his critics for picturing him as a foe of good government.

The statement, according to the governor's confidants, will be a direct answer to William Allen White, Kansas editor, who charged that the nominee, when a member of the state legislature 30 years ago, always voted to protect the saloon, gambling and vice.

While the statement may not mention Dr. John Roach Straton, pastor of Calvary Baptist church, New York, by name, friends of the governor predicted that indirectly it would be a complete answer to the charge by the clergyman that the nominee is "the deadliest foe in America today to moral progress."

Marksmen Gather at Vandalia for Annual Event

Vandalia, Aug. 20.—With more than 1,000 marksmen from all parts of North America in attendance the twenty-ninth annual grand American trapshooting tournament got under way here this morning. This was the largest number of entrants in the history of the association.

Class championships of North America were to be shot off today. The classes include AA, A, B, C, D, and E. The marksmen will fire at 100 targets each, shooting from the 10-yard rise. It was expected that more than 1,000,000 rounds of ammunition will be required during the shoot. This will be a record of all time, it was said.

state organization of Kiwanis club was announced at a luncheon of the local Kiwanis club, recently, is a charter member of the Marion club.

"Dr. Jim," as he is familiarly known to members of the Kiwanis organization and other local citizens, was the first president of the Marion club and has been a director since its organization. He has served two terms as trustee, has been a member of the child's welfare committee for three years and was chairman of the committee for one year. He also has been a delegate of Marion Kiwanis club to two international conventions.

Circulars containing literature concerning Dr. McMurray's record are

now in the hands of the campaign committee, composed of five members of the local club. They will be distributed to members of the 10 remaining clubs in the third district before the election, which will take place in Cleveland at the state convention in October.

CAUTIOUS BUYER
EVERY business place has almost daily experiences with customers who insist upon seeing that they get full measure in making purchases. They watch scales and measurements with utmost care and argue for the lowest price possible.

Not many, however, are quite as thorough in their buying as a woman who was a customer in one of the local "3 and 10" stores several days ago. She qualified for a medal as the most cautious of all customers in purchasing a writing tablet, on the cover of which was marked "100 sheets."

Being a doubting "Thomasina" she stopped and counted all of the sheets before handing her coin to the clerk. She was fully satisfied when the count showed that not only were there 100 sheets but several others glued in for good measure.

CAMPAIGN PLANS
THE political campaign in Marion county this fall is expected to be featured by old-fashioned methods as well as others of the more modern type.

There are to be the old-time rallies with lusty-roiled orators of note furnishing the entertainment, bands playing to stir the crowds up to a high pitch of enthusiasm and possibly some street parades. That was the sort of program carried out in the most spectacular presidential campaigns of former years and local party leaders are of the opinion that the situation this year sets the stage for a repetition of

these rousing demonstrations.

Candidates for county office are expected to tr their hand at new and original devices for advertising and vote solicitation.

In the pre-primary campaign, the candidacy of one of the aspirants for probate judge well called to the attention of persons in the up-town district by a boy who walked along the streets with two large advertising signs suspended from his shoulders, "sandwich" style.

One of the candidates for sheriff advertised his cause by employing two young men to ride an old-time tandem bicycle carrying a sign soliciting votes. The sign was attached to a pole extending out from the bike.

Candidates for local office invariably strive to conceive original and unique schemes for attracting the attention of voters. Not all, however, are able to break away from the usual line of advertising.

The general opinion in political circles is that organization work and newspaper publicity are the most effective means of collecting votes.

VARIETY IN HOMES

HOME building has been more extensive in Marion than in the majority of cities this year. In addition to the volume of construction work being done above the average, the dwellings built here have been notable because of new ideas in architecture introduced.

There has been a wider variety of designs than in former years, when there seemed to be considerable sameness in the general run of planning. For a number of years, when home building was going on in specially large proportions, the ordinary square type of house prevailed. Then the bungalow was introduced and attained popularity.

This year, although not bringing home building of boom proportions, it inaugurated what appears to be a new era in construction activities. Local builders are providing their customers with a more varied line of dwellings to suit almost any preference.

Early in the year local realtors announced that following a survey it was decided that the Marion market demands the best type of modern homes and that building should be carried on in the future with that point in mind. As a result, indications are that the city will add to its reputation for being a community of high class dwellings.

EASY

Look What You Get for \$129.00

Slightly more on time payments

THOUSANDS of women who thought they couldn't afford an Easy Washer may now own one of these famous wringer-type washers.

Here are some of the superlative features of the Easy Washer which are found in this new Model just as they are in the more expensive Easys:

Famous Vacuum Cap Washing Principle—The gentlest, most thorough washing action known. The vacuum cap wash without friction. Air, soap and water is gently sucked back and forth through the fabric by the up and down action of the cap.

Washes Everything—Fine delicate pieces washed safely—heaviest garments washed thoroughly.

New Improved Type Tub—A nickel-plated inner tub of Sphaloy is now enclosed by a dust-proof outer jacket, finished in beautiful white Duco that a wash of a cloth will keep spotless. The double wall acts as a heat insulator and thus saves fuel. The big round tub holds eight double loads or the equal in other clothes; it has no corners exposed to catch dirt, and the full size opening makes it easy to put in and take out clothes.

No Suds to Break—Years ago the makers discarded the tub drive and the trouble that go with it.

New One-Piece Metal Wringer—Full cringing, looks in four positions, wrings in either direction, instant safety release.

Simple and Easy to Operate—Press a button, turn a lever—the Easy does the work.

All Moving Parts are Enclosed—No exposed belts, gears, etc. Children may safely play around the Easy.

One Patent Claim—All the washing parts underneath are held from one convenient, by hinged cover.

Senator Curtis Adheres to Herbert Hoover Principles in His Acceptance Speech

Vice Presidential Candidate Comes Out Strongly for Farm Relief, Prohibition Enforcement and Aid for Labor; Nominee is Praised by Fess

Topeka, Kan., Aug. 20.—Following closely the declaration of party principles laid down by Herbert Hoover last week at Palo Alto, Calif., Charles Curtis, senior Senator from this state, Saturday accepted the Republican nomination for vice president.

Surrounded by the home folk and before thousands who came from afar, the favorite son of the Sunflower State laid down 14 points for maintenance and promotion of prosperity in America. He was back in the haunts of his childhood and early political career, where he had received for the past 31 years political preferment, and today he accepted a higher honor, never before accorded a Kansan.

Curtis came out strongly for farm relief, prohibition enforcement, aid for labor, made an appeal for full participation of women in politics and government, and urged prompt reduction of the public debt, expenses of government, and Federal taxes, as the most

important of the fourteen as means to prosperity.

Agricultural Problem
Solution of the agricultural problem properly is and always should be non-partisan, Curtis said. It is a "trying and perplexing one," and is of deep-seated economic importance to every citizen without regard to his occupation or his political party.

"I am convinced that if a small joint committee of the house and senate were appointed to study the problem and to find the proper solution, the necessary relief quickly could and would be afforded," Curtis declared.

Without the help which the Republican party has given the farmer, Curtis asserted, the agricultural situation would be "infinitely worse than it is."

Of law enforcement and prohibition Curtis declared it impossible to ignore the Constitution and "unthinkable" to evade it by a particular administration policy.

"The Constitution of the United States is the Keystone of our national strength, our pride in the hour of prosperity, our consolation and rallying point under every pressure of adversity; and whoever seriously wishes to preserve our Constitution in its full purity and vigor must of necessity wish to

have all its articles and amendments honestly observed and faithfully enforced," he said.

Opposes Eviction
For the federal government now to permit each state to determine for itself the alcoholic content of legal beverages, he asserted, would be a "direct and indefensible attempt on its part to evade" responsibility put upon it by the 18th amendment.

"I believe in meeting an issue squarely, therefore I state that not only am I heartily in favor of faithfully enforcing all our laws, but, further, I am opposed to the repeal of the 18th amendment or of the Volstead act."

In his appeal for the labor vote Curtis cited what laws already have been enacted for the betterment of conditions of labor, and emphasized that immigration has been restricted sharply.

Declaring that there are approximately 27,000,000 women entitled to vote, Curtis urged them to exercise that right, "as a matter of duty."

The Republican party, he said, has welcomed the increasing activity of women in government and politics, and "from the first has given women substantial recognition in its councils."

It believes in, and practices the principle of full equality between man and woman, Curtis added.

For Tax Reduction
"Prompt reduction of the public debt, of expenses of public administration, and of Federal taxes," he declared, "are obviously sound business practices."

He would do away with every "useless and unnecessary board, bureau and commission," as a further means of economy in government, and he renewed the party pledge "to such further reduction of the tax burden as the condition of the Treasury may from time to time permit."

The remaining nine points Curtis summarized:

Maintenance of peace with encouragement of commerce with all nations, but to enter entangling alliances with none; encouragement of industry, and a protective tariff; development of transportation and communication, national and international, through consolidation of railroads, completion of inland waterways, re-establishment of a strong merchant marine, a strong postal and commercial aircraft service, an efficient use of the radio; justice to all their rights; preservation of the Federal government and maintenance of national consciousness; liberty of the press, freedom of speech, promotion of education, security of individual rights and civil liberty; flood control; generous fulfillment of obligations to war veterans.

Praise Curtis
Formally notifying Senator Curtis that the Republican Party had nominated him as its candidate for vice president, Senator Simon D. Fess, of Ohio, stressed the Kansan's record in public life and his fitness to run on the ticket with Herbert Hoover, Republican standard bearer.

The Republican party's record in dealing with agriculture in the past and promise for the future under the Hoover-Curtis banner, was pointed out by Fess in his appeal for support to the electorate next November, together with its record in foreign affairs and its stand for enforcement of the 18th amendment.

MARION COUNTY IN OHIO FAIR EXHIBITS

Local Stock Breeders List Entries in Competition at Columbus

A number of Marion county stock breeders will have exhibits at the Ohio state fair, Aug. 27 to Sept. 1, according to announcement today of C. V. Truax, director of agriculture. Sheep, swine and cattle have been entered in the \$3,000,000 livestock show in competition for \$150,000 premiums offered by the fair.

J. F. Heckman, Marion, has entered 22 Chester whites in the swine department, which offers a total of \$12,000. The Keystone farms of Marion county have entered 21 Hampshires.

The western section of Marion county lists two exhibits, H. B. Schwaderer, who will show two shorthorns and three steers; and D. D. Clifton, who will exhibit 12 shropshires, 11 oxen and seven southdowns.

Other Marion county entries are 10 shorthorns owned by F. D. Isler & Sons, Prospect; and two steers, owned by Ralph E. Bender, Waldo.

The livestock show at the Ohio state fair has in the past attracted the best livestock of the country. The nationwide aspect of the show can easily be seen when the number of states and sections in the United States is noted. Up to the closing date for entries, Aug. 11, entries had been recorded from 21 different states from all different sections.

THE NEW STATION

For

Prospect, Delaware and Columbus and also for Bucyrus

Passengers living near to the East Center, South Main or North State Street car lines may take these city cars and secure a transfer to the interurban. This transfer will entitle the passenger to a credit of five cents, either on the purchase of a ticket at the interurban passenger station or if it is presented to the conductor on the interurban car he will likewise honor it for five cents for the purchase of additional transportation. Inbound interurban passengers may secure a transfer to city cars upon application to the conductor when paying their fare.

Judge Florence Allen to
Be Principal Speaker at
County W. C. T. U. Meeting

Arrangements Completed for Annual Convention at Meeting of Executive Board; Appointments of Year's Committees Made by President

Plans were made for the annual convention of the Marion county Women's Christian Temperance union, to be held Thursday, Sept. 27, at a meeting of members of the executive board of the county union Saturday afternoon at the home of Mrs. H. O. Toms 293 South State st.

A convention committee comprised of Mrs. J. J. Stafford, Mrs. Addison Bain,

Mrs. Anna Berry and Mrs. S. G. Haldeman, will determine the place of the convention. Judge Florence Allen of the Ohio supreme court is to be the principal speaker.

Mrs. Sara Stoner, of Prospect, county president and presiding officer, made the following appointments for the coming year: Mrs. A. L. Wood, musical director; Mrs. Carrie Durr, Amer-

icanization superintendent; Mrs. Laura Hand, child welfare superintendent; Mrs. S. G. Haldeman, Christian citizenship superintendent; Mrs. Clara Lilley, open air exhibit superintendent; Mrs. Minnie Fetter, flower mission superintendent; Mrs. Emma Gaston, of LaRue and Mrs. Haldeman, committee on evangelism; Mrs. Anna Berry, soldiers' and sailors' superintendent; Miss Minnie Hoover, prison work superintendent; Mrs. George Orians, Sabbath observance and Sunday school superintendent; Mrs. John Newby, publicity chairman and superintendent of the Young People's Branch; and Mrs. Addison Bain, social morality superintendent.

It was decided to obtain a state W. C. T. U. worker for a house-to-house membership drive here in the near future. Communications from the state officers were read.

Madam—Let Us Give You a
Vacation from Wash-Day

The weekly family washing—even under the most favorable conditions—is drudgery in hot weather.

Don't be a martyr to old habits—get some new ones.

Let one of them be the habit of sending the family bundle each week to our modern plant.

Do what pleases you in the meantime, knowing that everything will come back—on time—beautifully laundered—ready for use—and the cost is so reasonable.
